

Holden Municipal Light Department

Street Light Conversion Program – Update 3

July 13, 2017

- *The Light Department is the recipient of a grant from the State Department of Energy Resources (DOER) to facilitate the conversion of our street lights to LED.*

- *On July 12, conversion of the lights started on Doyle Road. On that day, lights on Doyle Road and portions of Shrewsbury Street (Doyle Road to Bullard Street) were replaced.*

- *Next on our list:*
 - *Shrewsbury Street – Bullard St to West Boylston line and Doyle Rd to Main St*
 - *Holden Street – Shrewsbury St to Worcester line*
 - *South Main Street – Shrewsbury St to Worcester line*
 - *Salisbury Street – Main St to Worcester line*
 - *Reservoir Street / South Road / Paxton Road – Main St to Paxton line*
- *This will happen weather permitting and scheduling around other HMLD work.*
- *It will take the remainder of this year to replace all the lights under the DOER program.*
