RE: *REQUEST FOR ADVISORY RULING-WATERSHED PROTECTION ACT [313 CMR 11.00]*
Muschopauge Road, Holden, MA
Assessor Map 84, Parcel 5 (Lots 1, 2, 3, and 4)

Dear Mr. Harrity:

The Department of Conservation & Recreation, Division of Water Supply Protection [the Division] has reviewed your proposal to construct three single family houses with associated grading, paved driveways, septic systems, and limits of clearing as depicted on the plans entitled, "Water Supply Protection Act Plan, Muschopauge Road, Holden, MA, Assessors Map 84, Parcel 5" by Land Planning, Inc., dated January 29, 2024. It is understood that Lots 3 & 4 will be merged into one Lot. The Division has determined the project **is not prohibited from the provisions of the Watershed Protection Act (WsPA).** Therefore, no further action is needed. Further specific information regarding this ruling and the jurisdiction of the Act relative to your lot and your proposal is included below.

Division staff have reviewed the jurisdictional areas of WsPA relative to the parcel. The Division has determined that portions of your lot are located within jurisdiction.

Shown on the attached map are the following areas of jurisdiction:

- **200 feet -400 feet from a tributary. Certain restrictions apply to activities in this area.**

Not shown on the attached map: there may exist bordering vegetated wetlands subject to the Act (313 CMR 11.04(1)(e)), the exact location of which should be determined by the Holden Conservation Commission.

COMMONWEALTH OF MASSACHUSETTS · EXECUTIVE OFFICE OF ENERGY & ENVIRONMENTAL AFFAIRS

Maura T. Healey
Governor

Kimberly L. Driscoll
Lt. Governor

Rebecca L. Tepper, Secretary
Executive Office of Energy & Environmental Affairs
Brian Arrigo, Commissioner
Department of Conservation & Recreation

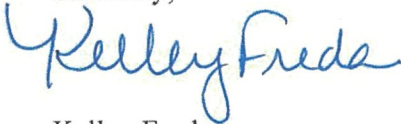

Your project is located within 200-400 feet of a tributary. However, the amount of proposed impervious area on the property is below 10% (313 CMR 11.04(3)(b)2.1.) and the house and septic system are located outside of WsPA jurisdiction and the Zone A surface water supply protection area, therefore the work is not prohibited pursuant to the Watershed Protection Act. The Division has determined the work will not impair the quality of water in the Watersheds so long as the following conditions are followed.

SPECIAL CONDITIONS

1. Following the installation of erosion and sedimentation controls and limit, the applicant shall notify the Division at least two business days before the start of construction, so that the Division will have the opportunity to inspect the erosion and sedimentation controls. Contact Bernadette DeBlander at (857) 303-5427 or Bernadette.DeBlander2@mass.gov.
2. Erosion and sedimentation control measures shall be inspected regularly and after every storm event and cleaned or replaced as necessary to retain functions and shall remain in place until the work area is stabilized.
3. The Division shall have the right to enter and inspect the property, (per 313 CMR 11.11(4)) at reasonable times, for compliance with this Ruling, the Act, and the Watershed Protection Regulations (313 CMR 11.00).

In summary, your project can proceed without further review by this office. This ruling is based solely on the activity as described in the application. Changes to the project or other proposed alterations/uses would not necessarily be exempt and an additional ruling would be needed. Please be aware, should your activity cause a pollutant to enter a resource, you could still be subject to enforcement under the Watershed Protection Act. Please feel free to contact Bernadette DeBlander at Bernadette.DeBlander2@mass.gov or 857-303-5427 if you have any questions regarding this Advisory Ruling.

Sincerely,

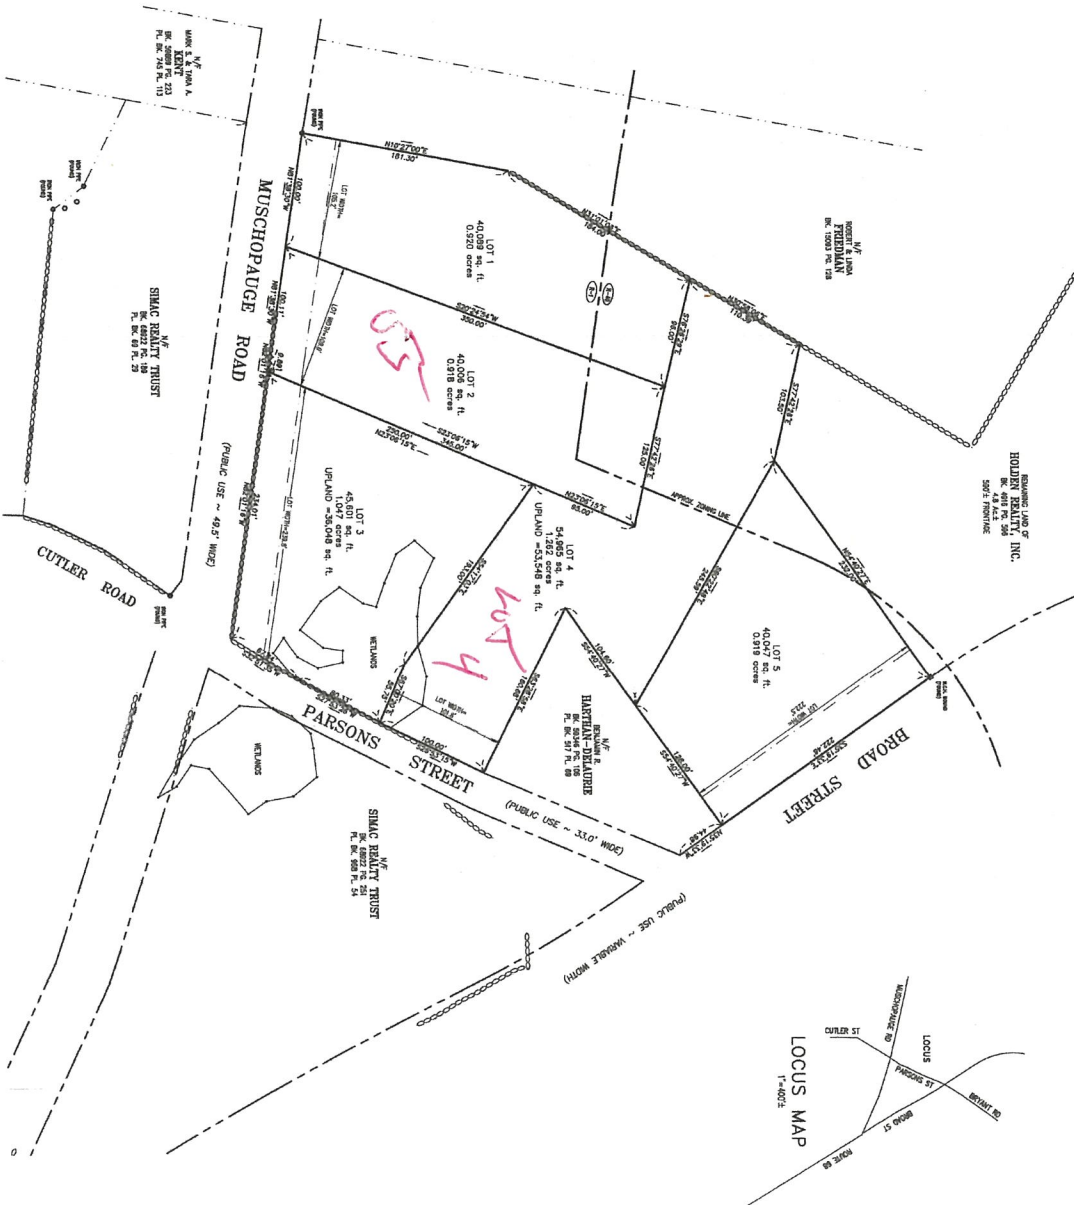

Kelley Freda
