

Zone of Transition between BFE 730.6 ft to 728.6 ft.  
Linear distance is approximately 28 ft.

Drainage Swale  
Proposed BFE: 728.6 ft

Old Salisbury Wetlands  
Proposed BFE: 730.6 ft

Limit of Detailed Study

## Legend

- River Centerline
- Base Flood Elevations, feet
- 100-Year Flood Extents- Old Salisbury Wetlands
- 100-Year Flood Extents- Drainage Swale
- 100-Year Flood Extents- Shallow Flooding
- Elevation Contours, 5 feet
- Elevation Contours, 1 foot
- Parcel Boundaries
- Existing FEMA A Zone

Topographic contours based on  
2011 Northeast LiDAR database  
available through MassGIS.  
The vertical datum is NAVD88 ft.
