Program Overview: The GO Program Prescriptive Lighting Incentive Program is designed to expedite the processing and installation of typical lighting energy efficiency opportunities in commercial, industrial and non-residential buildings. Incentives are offered to promote the installation of premium efficiency lighting equipment and offset the incremental cost of such equipment over standard replacements.

Incentives are capped at 50% of Installed Costs.

4 Easy Steps to receive your GO Incentive:

1. Is your project eligible?

- Equipment must be new and installed in a non-residential building located in a participating Massachusetts Municipal Utility Territory.
- Installation completed, or to be completed, within current program year of January 1, 2019 to December 31, 2019. Applications must be received within the current program year to qualify for incentives.

2. Is the equipment you intend to buy eligible?

• Only the exact product types and minimum efficiency levels listed in this form are eligible for prescriptive incentives.

3. Complete and sign the application.

- Incomplete applications will delay review and payment. Please be sure to provide all requested information.
- Incentives are capped at 50% of project costs

4. Pre-Approval is required for all projects:

- Before you purchase and install the equipment, send the following to the GO Program in order to receive a "pre-approved incentive" letter:
 - 1. Your application with all requested information filled in.
 - 2. Manufacturer's technical specification sheets ("cut sheets") for each type of eligible equipment purchased.
 - 3. A copy of your most recent electric bill.
 - Please note that item 2 above must be submitted in order for you application to be processed.
- After you have purchased and installed the qualified equipment, return the following to the GO Program:
 - 1. A signed copy of your "pre-approval incentive" letter.
 - 2. A copy of your invoice showing the date and place of purchase and model/part numbers of the equipment installed.
 - 3. Invoices must be submitted within 60 days of invoice date.

Please note: In order to receive an incentive from the GO Program, invoices and manufacturer's technical data sheets ("cut sheets") will always be required.

Application Submission: Submit the application and appropriate documents using one of the following methods:

E-mail: EnergySavings@mmwec.org

Mail: GO Program c/o ERS 120 Water Street, Suite 350 North Andover, MA 01845

CUSTOMER AUTHORIZATION
By signing this application, I acknowledge that I have read and understand the terms and conditions of the program and I verify that all information provided in this application is accurate and true to the best of my knowledge.

Customer's Name and Title:

Customer's Signature and Date:

Pre-approval is required for all projects. See page 1 of application for steps to be pre-approved. Incentive capped at 50% of installed costs. See program descriptive for maximum incentive allowed. To qualify for the incentive:

- Equipment must be new and installed in a non-residential building.
- Installation is completed within current program year of January 1, 2019 to December 31, 2019.
- Applications are received within current program year of January 1, 2019 to December 31, 2019.
- Invoices must be submitted within 60 days of invoice date. Note: Invoices for projects completed in December 2019 must be received by January 31, 2020.
- Fill out entire application and provide the following:
 - __Manufacturer's technical specification sheets (*cut sheets*) for each type of eligible equipment purchased
 - __Copy of your most recent electric bill
 - __Copy of your invoice showing the date and place of purchase and the model/part numbers of the equipment installed

	TABI	_E 3	: LIGHTING SY	STEM AND	ELIGIBILITY REQUIREMENTS
Measure		Code	Eligible Installations	Unit Incentive	Eligibility Criteria
	LED Cooler Case Occupancy Sensor	L50	Cooler Case Mounted Occupancy Sensor for LED Fixtures	\$25 per Door Controlled	Must be installed with new, qualifying LED cooler case fixtures (S30)
P. A. I	Controls for H.I.F. and LED Systems	L60	Fixture Mounted Occupancy Sensor	\$40 per Fixture	Each unit must control a wattage total greater that 125W Ballast must be automatically controlled based on occupancy Must provide for continuous dimming or stepped dimming of at least 50%
	Remote Mounted Occupancy Sensors	L70	Remote Mounted Occupancy Sensor	\$55 per Control	Each unit must control a wattage total greater than 125W Wall switchplate mounted sensors are not eligible
	Vacancy Sensors	L71	Manual On/Auto Off Vacancy Sensor	\$25 per Control	Each unit must control a wattage total greater than 125W Wall and ceiling mounted units are eligible Sensors must operate on a manual on/automatic off basis Refer to Occupancy Sensors for more detail
	LED Retrofit Kits	S8	LED Retrofit Kits for Streetlights, Parking Lot Lights and Fuel Pump Canopy Fixtures (does not include screw-in lamps)	\$100 per Kit	Integrated-style kits that replace all reflectors and optical systems of existing luminaires. Does not include screw-in lamps Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
	LED Outdoor Area Fixture	S10	Outdoor Pole or Arm- Mounted LED Streetlight or Parking Lot Fixture	\$175 Per Fixture	 Typical street lights or parking lot lights. Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
	LED Wall pack	S12	Outdoor Wall-Mounted LED Area Fixture (Wallpack)	\$100 Per Fixture	Typical walkway or security lights, affixed to a building wall. Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
	LED Parking Garage Fixture	S14	LED Parking Garage Fixture	\$175 Per Fixture	Ceiling mounted luminaires for use outdoors or in locations open to elements. Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
	LED Fuel Pump Canopy Fixtures	S16	LED Fuel Pump Canopy Fixtures	\$175 Per Fixture	Ceiling mounted luminaires for use outdoors or in locations open to elements. Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
	LED Downlight	S20	Recessed, Surface and Pendant-Mounted LED Downlight	\$35 Per Fixture	Includes recessed, surface or pendant-mounted ceiling and downlights. Must be qualified by ENERGY STAR – see the following link for a complete list of qualified products: www.energystar.gov/productfinder/product/certified-light-fixtures/results

LIGH	HTIN	IG SYSTEMS I	NCENTIVE A	AND ELIGIBILITY REQUIREMENTS CONTINUED
Measure	Code	Eligible Installations	Unit Incentive	Eligibility Criteria
LED Flood & Spot Lights	S22	LED Flood & Spot Lights (does not include screw-in lamps)	\$80<100W \$120≥100W Per Fixture	Directional luminaires intended to highlight objects and areas in outdoor lighting Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
LED Refrigerated Case Fixture	\$30	Refrigerated Case LED Fixture – Vertical	\$75 Per Door	Strip lights in refrigerator cases, vertically mounted along refrigerator case door mullions Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
LED Refrigerated Case Fixture	S32	Refrigerated Case LED Fixture – Horizontal	\$75 Per Door	Strip lights in refrigerator cases, horizontally mounted along refrigerator case shelves or canopies Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
LED Screw and Pinbased Lamps	S40	Screw-and-Pin- Based Integral LED Lamps (does NOT include LED linear replacement lamps)	Tier 1: \$5 Per Lamp Tier 2: \$10 Per Lamp Tier 3: \$50 Per Lamp Tier 4: \$5 Per Lamp	Must be qualified by ENERGY STAR – see the following link for a complete list of qualified products: www.energystar.gov/productfinder/product/certified-light-bulbs/results? Must be replacing an incandescent lamp. Tier1: MR16, PAR16, PAR20, A-Type Tier2: PAR30, PAR38, BR30, BR40 Must be qualified by Design Lights Consortium and replacing an incandescent lamp. www.designlights.org/qpl Tier3: Mogul retrofit Tier4: Candelabra, Globe
LED Interior Luminaires	S50	LED 1x4, 2x4, 2x2 fixtures for interior applications	\$75 Per Fixture	Common recessed, suspended, or surface-mounted fixtures intended to provide ambient lighting in settings such as office spaces, schools, retail stores, and other commercial environments. Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
LED High/ Low Bay Fixtures	S60	New LED fixtures for high and low bay applications	\$175 < 120W \$225 ≥120W Per Fixture	Pendent or surface-mounted fixtures specific for indoor high ceiling spaces. Must be installed in areas with ceiling heights of 16' or greater. Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
LED Retrofit Tube Kits for Interior Luminaries	S70	Two and four foot linear retrofit tube kits (one incentive per fixture).	\$20 for 2x2 and 1x4 fixtures \$30 for 2x4, 3x4 and 4x4 fixtures	Two and four foot LED linear tube and driver. 'UL TYPE B Lamps' (products requiring the rewriting of the existing fixture to bypass the ballast and send line voltage directly to the lamp holders) are not eligible. By signing the application, customers agree that necessary steps have been taken to ensure product, luminarie, and maintenance safety. Must be qualified by the DesignLights Consortium – see the following link for a complete list of qualified products: www.designlights.org/QPL
