

## **Mountview Middle School**

- RENOVATION / ADDITION
- NEW CONSTRUCTION ON EXISTING SITE
- NEW CONSTRUCTION ON ALTERNATE SITE

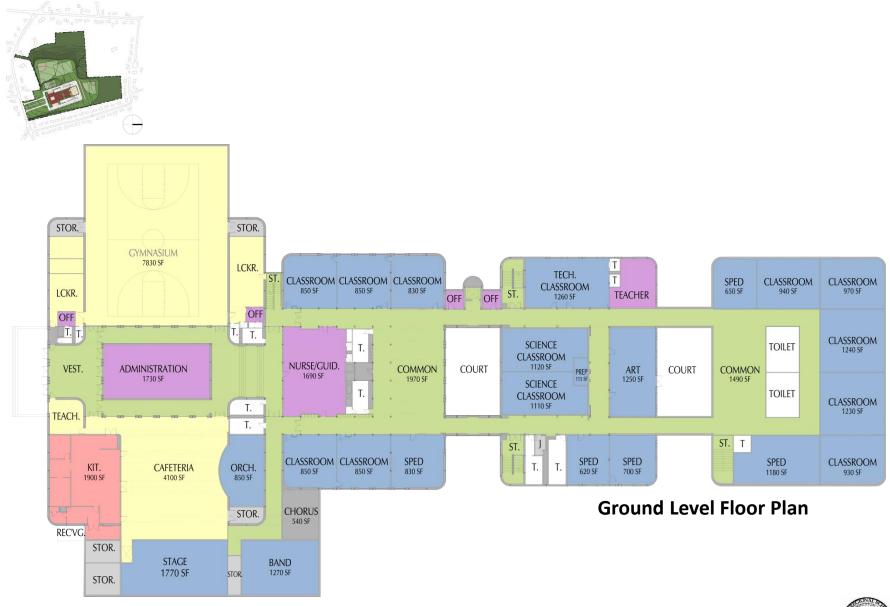

LAMOUREUX · PAGANO Associates, architects

#### SUMMARY

- Renovate and reconfigure existing building
- 52,000 square-foot addition
- New addition behind school
- New additions to Gymnasium & Cafeteria
- Upgrade all building systems
- Work done during school years, accelerated during non-school periods
- Hazardous material remediation
- Larger gross square footage required to yield enough academic/teaching space

## PREFERRED SCHEMATIC REPORT Evaluation of Alternatives: *Existing Site – Renovation/Addition*

PREFERRED SCHEMATIC REPORT Evaluation of Alternatives: *Existing Site – Renovation/Addition* 

•

### ADVANTAGES

- Lowest project cost
- Utilizes existing structure
- Utilizes current school site minimizing site work

LAMOUREUX · PAGANO Associates. Architects

### DRAWBACKS

- Higher risk of change orders due to unforeseen conditions
- Budget must carry higher contingencies
- Longer, more-complicated project schedule
- Severe impact on students and operations during construction
- Requires use of temporary classrooms
- Some teaching spaces will be undersized
- Highest long-term annual operating costs

# PRELIMINARY PSR COST ESTIMATES

• Total project — \$55.9 to \$58.3 million

(Includes costs to remediate hazardous material and to provide temporary classrooms.)

Construction Phase — 30 Months

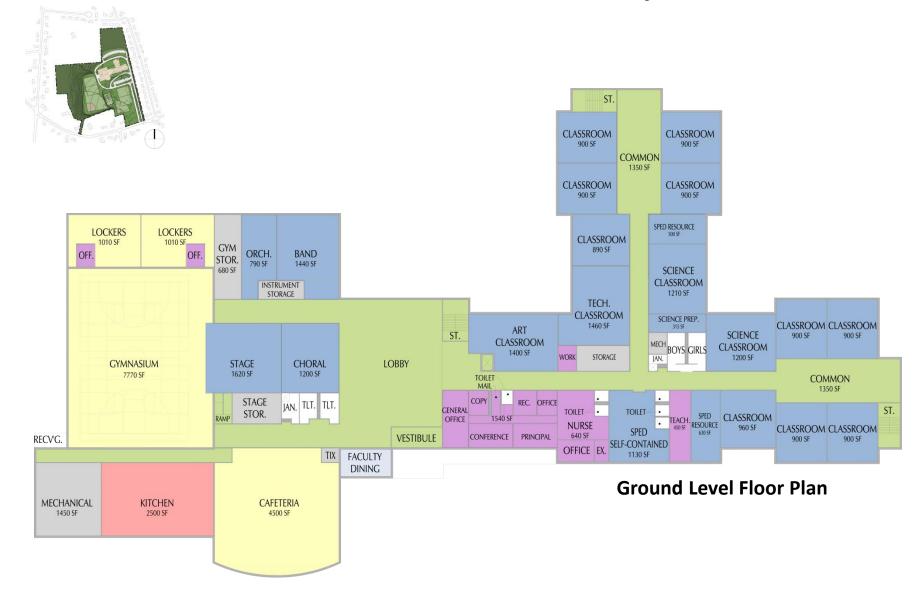

LAMOUREUX · PAGANO ASSOCIATES, ARCHITECTS

#### **SUMMARY**

- Construction located behind existing building
- New, 128,000 square-foot building
- Mountview in full use during construction
- No change to the volume of traffic on Shrewsbury Street
- **Relocate Athletic Fields**
- Cost to remediate Hazardous material and demolish old building is reimbursable

## PREFERRED SCHEMATIC REPORT Evaluation of Alternatives: Existing Site – New Construction

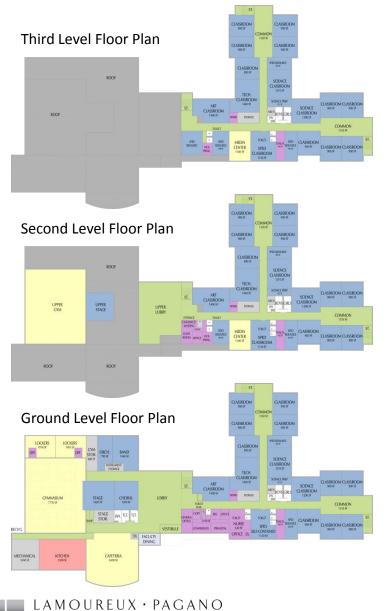

## PREFERRED SCHEMATIC REPORT Evaluation of Alternatives: *Existing Site – New Construction*

ASSOCIATES, ARCHITECTS

#### **ADVANTAGES**

- Optimal building design for WRSD educational program
  - Minimum risk for unforeseen conditions
  - Simplified construction process
  - Lower annual operating cost (smaller building, best materials/technologies)
- Lower site-development cost
- Better traffic circulation and parking on site
- No change to traffic volume on Shrewsbury street

#### DRAWBACKS

- Most expensive option due to hazardous material remediation and demolition
- Some impact on students and school operations during construction
- Loose some playing fields during construction
- Construction schedule works around school operations

# PRELIMINARY PSR COST ESTIMATES

• Total project — \$59.3 to \$61.8 million

(Includes costs to demolish Mountview and remediate hazardous material, which is reimbursable.)

• Construction Phase — 27 Months

## PREFERRED SCHEMATIC REPORT Evaluation of Alternatives: New Site – New Construction

LAMOUREUX · PAGANO Associates. Architects

#### **ADVANTAGES**

- Optimal building design for education
- Preserves Mountview building and site for alternate uses
- No impact on students or school operations
- Lower annual operating cost (smaller building, best materials/technologies)
- Relieves traffic on Shrewsbury Street
- Shortest construction timeline

#### DRAWBACKS

- Cost more than addition/renovation
- Wetlands pose permitting
- Increases traffic on Malden Street
- Off site improvements could be substantial and are no reimbursable
- No state reimbursement for costs to remediate Hazardous material at Mountview or for its demolition

## PRELIMINARY PSR COST ESTIMATES

# • Total project — \$57.4 to \$59.8 million

(Excludes costs of off site improvements, demolition and remediation hazardous material at Mountview, which are not reimbursable.)

• Construction Phase — 24 Months

	Renovation / Addition	New building / current site	New building / new site
Construction Cost (million)*	\$46.6	\$49.2	\$47.8**
